August 2019

Dear Pastor and Church family:

Crystal and I had a lot going on this past month! At the end of July, we headed back up to our sending church for my ordination. Along the way, we were able to stop in to visit one of our supporting churches in Kearney, NE. We had the opportunity to give them an update in person, and I had the opportunity to preach their afternoon service. After our arrival in WA, we had the privilege of being a help to our sending church and pastor while our pastor was recovering from pneumonia. Crystal and I were thankful to be able to spend our third wedding anniversary back at our home church, with our church family.

After ordination, we headed to Amarillo, TX, for a missions conference. As we traveled from Washington to Texas, we spent Sunday in Idaho. Sunday morning, we stopped in Nampa and made a contact with a pastor. Sunday night, we reported back to one of our first supporting churches in Jerome. We thank the Lord for our supporting churches who faithfully give and who pray for us as we travel the country on deputation!

The last Sunday of August, we were scheduled to be in a church all day in Wylie, TX. As we close out August, we are making preparation to spend the month of September in Georgia, Indiana, Ohio, Colorado, and Oklahoma. Lots of travel is to take place this month, and we thank you for your continued prayers for safety!

Prayer Requests

Please keep my dad in prayer. He still has some kidney trouble that the doctors are trying to pinpoint. We are thankful there is no cancer or infection, but there is still discomfort.

Praise

Last month, I mentioned Pastor Bohannan McKenzie, our sending pastor, had pneumonia and a "lump" in his right lung. He is recovering now, and the "lump" turned out to be an infected node that is treatable. He is to take it easy for a few weeks, but there is no long-term concern. Thank you for praying!

Also, we are thankful that we were able to get 3 more supporting churches this month!
